Physical Activity, Undirected Play, and Student Discipline

It is the policy of the Board to promote the health and well-being of district students by encouraging healthy lifestyles including promoting physical exercise and activity as part of the school day.

For elementary school students, the Board includes a time of not less than twenty (20) minutes in total, during the regular school day, to be devoted to physical exercise, except when a Planning and Placement Team (“PPT”) develops a different schedule for students requiring special education and related services. The administration may include additional time, beyond the twenty minutes required for physical exercise, devoted to undirected play during the regular school day for elementary school students.

Loss of Recess or Undirected Play Period as a Disciplinary Consequence:

In an effort to promote physical exercise and undirected play, the Board prohibits school employees from disciplining elementary school students by preventing them from participating in the full 20 minutes of time devoted to physical exercise or additional time devoted to undirected play during the regular school day, except in instances where the student’s behavior poses a health and/or safety concern or as determined during a student’s Section 504 or PPT meeting.

Physical Activity as a Form of Discipline:

For all students, the Board prohibits school employees from disciplining students by requiring students to engage in physical activity as a form of discipline during the regular school day.

Definition:

For the purposes of this policy, a “school employee” is defined as (1) a teacher, substitute teacher, school administrator, school superintendent, guidance counselor, school counselor, psychologist, social worker, nurse, physician, school paraprofessional or coach employed by the Board or working in the district schools, or (2) any other individual who, in the performance of his or her duties, has regular contact with students and who provides services to or on behalf of students enrolled in the district schools pursuant to a contract with the Board.

Disciplinary Action for Failure to Follow Policy:

Any employee who fails to comply with the requirements of this policy may be subject to discipline, up to and including termination of employment. Any contracted individual who provides services to or on behalf of students enrolled in the district and who fails to comply with the requirements of this policy may be subject to having his/her contract for services suspended by the district.
